The Montessori schools have developed a unique approach to education which has been recognized and celebrated throughout the world. United Federation for Middle East Peace (“USFMEP”) will be welcoming outstanding students from these schools in order to introduce them to and educate them on the procedures of the United Nations. This event will bring together 2,000 people from countries all around the world including the United States, Canada, Chile, Norway, Nigeria, China, Puerto Rico, Mexico, Pakistan, and The Virgin Islands.

USFMEP President Sally Kader said “since our inception a decade ago, we have been promoting youth leadership and education as a means of promoting peace.” USFMEP believes that we should educate the youth since they are our future leaders and our hope for a peaceful world. We hope that investments in youth education will benefit future generations in pursuit of this goal.

Our organization aims to mobilize members of society, particularly youth, of all regions, to contribute to lasting peace in the world. Education is pivotal for the next generation of world leaders and it is an essential tool to ensure peace efforts succeed in the future. This significant event will be a step towards realizing an educated populace where peace and harmony are primary concerns in devising solutions to international problems.

“I am very pleased to be hosting this grand event and I am sure it will serve as a valuable experience for all of us. I hope this event will inspire the future leaders of tomorrow to change our world for the better,” President Kader exclaimed.
